### What's In The Box

### What You'll Need

<b>Mosey Magnet Board</b> 1x 	<b>Matching 2" Wall Fastener Set</b> 1x 	<b>Innate Radness Done!</b> 						
<b>½" Nylon Standoff Set</b> 1x 	<b>Wall Anchor Set</b> 1x 							
<b>Magnet Set</b> 1x 								

DESIGNED & CRAFTED BY RADICALLY TALENTED HUMANS RIGHT HERE IN THE U.S. OF AWESOME.

LIGHTNING FAST LEAD TIMES.

# Installation Steps

001

Yo, let's go! Position your Mosey magnet board on your wall, ideally with fastener holes aligned on a stud or blocking. **See Rad Tip** ① on page 7 for more on blocking.

002

Partially install a fastener into an upper fastener hole location. Mark the location first with a pencil or fastener tip if needed. Do not fasten to full tightness.

003

Level the board. Mark all remaining fastener hole locations. Uninstall the first fastener, and set the board aside.

004

Drill a pilot hole for each fastener location using a 1/4" drill bit. Pilot holes and wall anchors are not needed for locations backed by studs or blocking.

005

Install drywall anchors in each fastener hole location crossing drywall that isn't backed by studs or blocking. If you are installing on masonry, you must use a wall anchor rated for masonry use. If you are using your own anchors, we recommend Toggler brand.

006

Position the board. Beginning at the top of the board, install all wall fasteners through board and nylon standoffs.

007

Stand back and relax, you did it! Give your cat a celebratory fist bump, if present.

Need a hand? Speak with a Shelf Geek at 949.244.1083 or hello@shelfology.com today.

How did we do? You'll get an email soon asking for a product review, and we'd be stoked if you oblige. You rock in advance!

## Warnings

**1 Correct Install Required For Safe Use**

1.1 Magnet boards must be correctly installed into studs, blocking, or the appropriate wall anchors. Failure to do so may result in sagging boards, falling objects, or serious injury.

**2 California Proposition 65 Warning**

2.1 This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Don't eat these magnet boards. If you live outside of California, do whatever you want. For more boring information, visit [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov).

**3 This Product May Make Others Incredibly Jealous**

3.1 Any Shelfology Certified Rad™ product should be flaunted with caution around friends, loved ones, and even complete strangers, as minimal or extreme jealousy may occur. Shelf responsibly.

**4 Do Not Use Dry Erase Markers on Magnet Board**

4.1 This magnet board is not dry-erase compatible. Do not write directly on it.

# Rad Tips

## ① Fasten Into All Studs & Blocking The Magnet Board Crosses

**1.1** Studs are the vertical 2x4 boards that make up the bones of your walls. They provide solid structure for your magnet boards to attach to.

**1.2** Blocking is typically added later between studs in the wall for additional support to mount products to, and is usually made from 2x4 or 2x6 lumber.
