furi MD/HD Bracl

Construction Method

② Use Any Desk Style

3 Hold Massive Weight

Bracket Rod Length	Desk Depth (D)
6" (MD)	7"–11"
8" (HD)	9"–12"
10" (MD)	12"-15"
12" (HD)	13"–16"
14" (MD)	16"–18"
16" (HD)	17"-20"
20" (HD)	21"-24"

Nearly any desk slab size, shape, or design will work with the Yuri Bracket as support. We recommend spacing brackets every 32" or less.

Weight capacity varies by desk depth, mounting surface and the number of fasteners secured through the bracket. Brackets must be installed correctly into studs and blocking. See Figure 1 below.

Figure 1: Yuri Bracket Weight Capacities

п

EERED H

Position desk slab. If you ordered pre-drilled rods, install set screws into desk through rod holes to secure it in place. If not, see **Rad Tip** () below for more information and for slab recommendations.

You are done! give your cat a celebratory fist bump if present. Gently place your authentic 1980's high-heel shoe phone on desk and admire.

Whoa, you made it! We are vicariously stoking for you right now. Post your sweet shelfie on Instagram now!

@ Longer Level

3 How to Make a Protecting the Finish

4 Securing the **Right Slab**

1.1 Yuri bracket is designed to be mounted on a fixed stud, post, or other structural surface. Drywall is not structural, and will not support this bracket.

2.1 You can turn a short level into a long one by laying it on a straight object like a yard stick. Just hold it in place with your bullet level on top and measure!

3.1 Covering the bracket support rod with lowtack removable tape will protect the finish during drywall installation, sanding, and painting. Remove tape before installing desk.

3.2 If you did not order set screw holes with your bracket, this is a perfect time to use a 1/8" drill bit and drill out two lovely set screw locations for a solid slab install.

4.1 At least 34" thick solid hardwood, or manufactured desk slab is recommended to avoid sag. See shelfology.com, or call 949-244-1083 to order slabs made to measure.

4.2 To secure your slab to the brackets, we recommend drilling at least two vertical holes in each support rod with a 3/16" drill. Install set screws through these locations.

1.2 Predrilling a 1/8" pilot hole in the desired lagscrew location will ensure accurate fastener placement, and prevent splitting of the stud or post.

# Warnings

### 1 **Correct Install** Required For Safe Use

## 2 Adhere To The Capacity Rating Of Your Specific Bracket

3 California **Proposition 65** Warning

④ This Product May Make Others Incredibly Jealous

1.1 Desk brackets must be correctly installed into studs or wall blocking. Failure to do so may result in sagging desks, falling objects, or serious injury. 2.1 Every Shelfology bracket weight class and length has been engineered for use with specific capacities/ dimensions. Failure to follow our specified capacity ratings and correct desk dimensions may result in sagging desks, falling objects, or serious injury.

3.1 This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Don't eat this bracket. If you live outside of California, do whatever you want. For more boring information, visit www. p65warnings.ca.gov.

**4.1** Any Shelfology Certified Rad[™] product should be flaunted with caution around friends, loved ones, and even complete strangers, as minimal or extreme jealousy may occur. Shelf responsibly.
