About Aksel LED

Aksel LED uses Tresco Inflex LED lighting and features our robust Aksel floating shelf bracket.

Tresco's patented Inflex systems feature aluminum extrusions that have been engineered to dissipate the heat from the premium quality Inflex LED FlexTape, resulting in maximized usable life from the product.

Precision CNC milled, hand-sanded, premium hardwood available in a variety of finishes.

Choice of front, middle, or rear-oriented LED strip and left or right wire exit location.

12VDC input voltage required.

Power supply is required (NOT provided).

Wattage is 1.50W per foot.

Forty foot max length per 60W power supply.

Manufactured from top-quality American steel made with 70% recycled content.

Designed and produced in beautiful middle-of-nowhere Idaho, with sweat, tears, and Ameri-quality awesomeness.

Shelfology radically recycles all production metal, wood and cardboard waste.

***WARNING:** All brackets must be installed into studs or posts. Failure to do so may result in saggy shelves, falling objects, or even injury.

**** WARNING:** Warning: The Aksel LED Floating Shelf will need to be connected to power and control switch(s) by a certified electrician. There are many accessories available that can power and control your shelf, discuss these with the electrician before purchasing these parts.

*****Drawings** are representations only and not to scale.
