Installation Steps

001

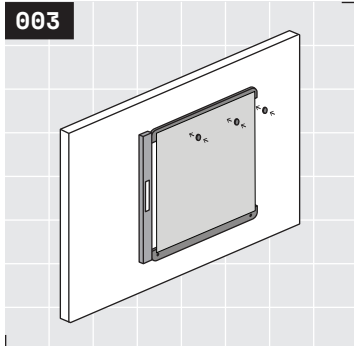

Yo! Here we go! Position top back plate on the wall in desired location.

002

Level the plate, then install fasteners into both fastener holes.

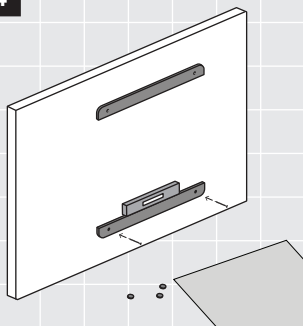

003

Evenly fasten art to the plate with provided magnets. Use the bottom edge of your artwork to position the bottom back plate. If needed, use your level to align the top and bottom plate. Take a swig of your favorite non-alcoholic brew.

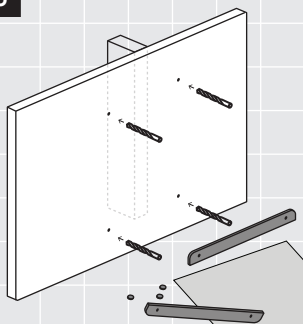

004

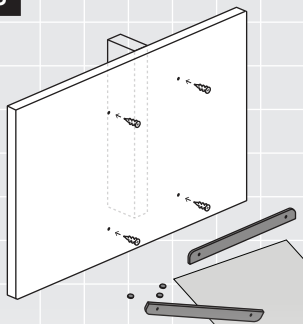

Remove art, and repeat step ② for bottom plate.

005

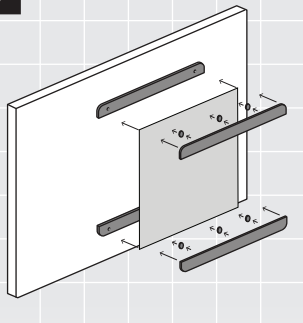

Remove all plates from wall. For any holes not crossing a stud or blocking, use your 1/4" drill bit to predrill for wall anchors. If you don't know what a stud or blocking is, refer to **Rad Tip ①**.

006

Install wall anchors into predrilled holes. Take another swig of your brew.

007

Reattach the backplates and your artwork with the magnets, and then put on your cover plates.

That's it! Sit back and admire. Finish off your soda, it's time to celebrate your innate awesomeness! If you need more help, please reach out to a shelf geek today.

How did we do? You'll get an email soon asking for a product review, and we'd be stoked if you oblige. You rock in advance!

Warnings

① Correct Install Required For Safe Use

1.1 Print hangers must be correctly installed into studs, blocking, or the appropriate wall anchors. Failure to do so may result in sagging print hangers, falling objects, or serious injury.

② Adhere To The Capacity Rating Of Your Specific Brackets

2.1 Every Shelfology bracket weight class and length has been engineered for use with specific shelf capacities/dimensions. Failure to follow our specified capacity ratings and correct shelf dimensions may result in sagging shelves, falling objects, or serious injury. For more information, reference the Magnetic Print Hanging System Specification Sheet.

③ California Proposition 65 Warning

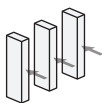

3.1 This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Don't eat this product. If you live outside of California, do whatever you want. For more boring information, visit www.p65warnings.ca.gov.

④ This Product May Make Others Incredibly Jealous

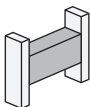

4.1 Any Shelfology Certified Rad™ product should be flaunted with caution around friends, loved ones, and even complete strangers, as minimal or extreme jealousy may occur. Shelf responsibly.

① Studs & Blocking

1.1 Studs are the vertical 2x4 boards that make up the bones of your walls. They provide solid structure for your print hangers to attach to.

1.2 Blocking is typically added later between studs in the wall for additional support to mount print hangers to, and is usually made from 2x4 or 2x6 lumber.
