

Runda Coat Rack

Capacity (lbs)
60-90

About Runda Coat Rack

Mounting plate is precision laser cut from 1/4" thick hot rolled steel.

Fastening screw holes are 3/16" outside diameter (OD).

Each hook is cnc milled from a single piece of solid hardwood.

Hooks are fastened to the mounting plate from the back through 3/64" recessed holes using two 3/4" long #6 flat headed screws.

Available in 1, 3, 5, and 7 hook variations.

Manufactured from top-quality American steel made with 70% recycled content.

Designed and produced in beautiful middle-of-nowhere Idaho, with sweat, tears, and Ameri-quality awesomeness.

Shelfology radically recycles all production metal, wood and cardboard waste.

***WARNING:** All coat racks must be installed into studs, posts, or properly mounted drywall anchors. Failure to do so may result in saggy product, falling objects, or even injury.

**Drawings are representations only and not to scale.
