## What You'll Need

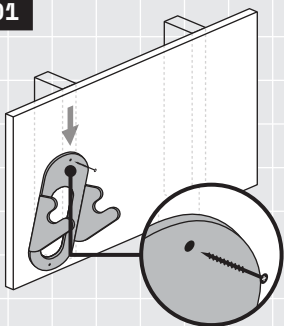

LEAD TIMES -

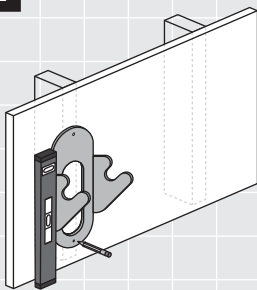

# Installation Steps

001

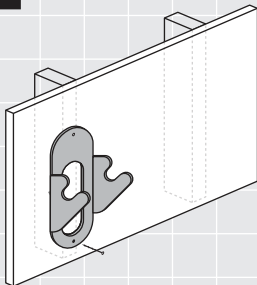

Yo, let's go! Position your Shuvit Skateboard Hanger on your wall in the desired location. Use a drill to install one of the included 1½" fasteners into the top fastener hole location.

002

Use a level to vertically level your hanger. Mark the lower fastener hole location with a pencil or fastener tip.

003

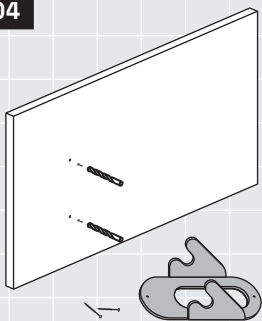

If your hanger is on studs or blocking, install second 1½" fastener in lower marked location and proceed to step 7. For more information on studs and blocking, see **Rad Tip** ① on page 7.

If your hanger is not on studs or blocking, proceed to step 4.

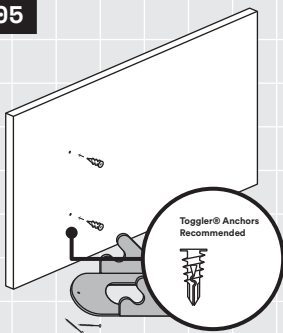

004

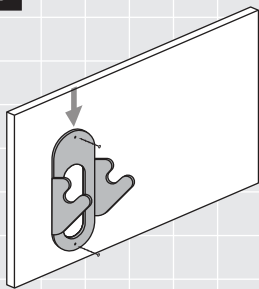

Remove your hanger from the wall. Using a  $\frac{1}{4}$ " drill bit, predrill both fastener locations.

005

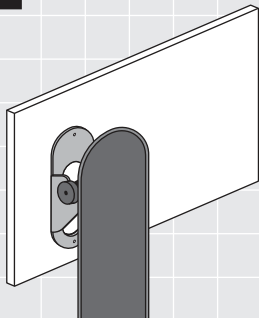

Install a wall anchor into both fastener locations. If you are using your own anchors, we recommend Toggler brand for best results.

006

Replace your hanger and make final install of the top and bottom matching  $1\frac{1}{2}$ " fasteners.

007

Stand back and relax, you did it! Give your cat a celebratory fist bump, if present. If you need more help, please reach out to a shelf geek today.

Need a hand? Speak with a Shelf Geek at 949.244.1083 or hello@shelfology.com today.

How did we do? You'll get an email soon asking for a product review, and we'd be stoked if you oblige. You rock in advance!

## Warnings

① **Correct Install Required For Safe Use**

1.1 Hangers must be correctly installed into studs or wall blocking. Failure to do so may result in sagging hangers, falling objects, or serious injury.

② **Adhere To The Capacity Rating Of Your Specific Shelf**

2.1 Every Shelfology shelf has been engineered for use with specific capacities. Failure to follow our specified capacity ratings may result in sagging shelves, falling objects, or serious injury. Please reference the Shuvit Spec Sheet for more information.

③ **California Proposition 65 Warning**

3.1 This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Don't eat this shelf. If you live outside of California, do whatever you want. For more boring information, visit [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov).

④ **Not For Use In Wet Environments**

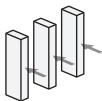

4.1 Powder coated carbon steel does not equal waterproof. If water has direct and constant contact with the hanger, like in a shower or outdoors, it will rust. Hangers installed in these conditions are not covered by our warranty.

# Rad Tips

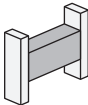

Shuvit Skateboard Hanger Install Guide  
Rad Tips

## ① Fasten Into All Studs & Blocking The Shelf Crosses

**1.1** Studs are the vertical 2x4 boards that make up the bones of your walls. They provide solid structure for your hanger to attach to.

**1.2** Blocking is typically added later between studs in the wall for additional support to mount your hanger to, and is usually made from 2x4 or 2x6 lumber.
