About Study Workbench Bracket

Bracket is made from 1/4" thick, solid hot-rolled steel. Upper mounting plate is 1/8" thick, solid hot-rolled steel.

Mounting screw holes are 3/16" OD.

Bracket supports 95 lbs when correctly mounted.* Study Workbench is designed to be paired with additional brackets for maximum stability and strength.**

Brackets are powder coated with any of our available colors, custom colors welcome.

Manufactured from top-quality American steel made with 70% recycled content.

Designed and produced in beautiful middle-of-nowhere Idaho, with sweat, tears, and Ameri-quality awesomeness.

Shelfology radically recycles all production metal, wood, and cardboard waste.

***WARNING:** All brackets must be installed into studs or backing. Failure to do so may result in saggy shelves, falling objects, or even injury.

****To avoid product failure, 48" is the maximum recommended distance between brackets used as a bench or desk system. Any surface or slab accompanying Study workbench bracket should be anchored to the bracket or an adjacent wall with a set screw.**
